Teaching and Mentorship

Mentoring philosophy

Mentoring students is one of the most important contributions a scientist could do to the society, and one of the greatest joys I see in my job. Through mentoring, I aim to help my mentees become active and educated citizens who can think critically and challenge status quo when facts contradict it. I leverage the beauty and complexity of life as an inspiration. I welcome and encourage students from all backgrounds regardless of gender, nationality, race, religion, or creed, to develop their own interest and motivation.

Undergraduate Honors Thesis Mentees

Sean Crites	(2021-22) Princeton EEB	“Investigating genetic underpinnings of host odor preference in <i>Culex pipiens</i> ”
Alexandra Colón	(2019-20) Princeton EEB	“A genetic analysis of host preference variation in <i>Culex pipiens</i> mosquitoes.”
Jaskiran Kaur	(2019-20) Princeton EEB	“Olfaction based host preferences in <i>Culex pipiens</i> mosquitoes”
Alexandra Hohmann	(2018-19) Princeton Neuro	“Comparing the Antennal Lobes of Two Forms of <i>Culex pipiens</i> Mosquito”

Summer Intern Mentees

Vitor Dos Anjos	(2020)	Swarthmore College “Annotating the chromosome-scale assembly of a mosquito genome”

Classes

- Evolution** (2021, 2022, 2023, 2024 *exp.*) led by Profs. Molly Schumer and Dmitri Petrov, Stanford University.
Guest lecture “*Mechanistic Basis of Behavioral Evolution*” at the intro-level Evolutionary Biology undergraduate course.
- Genomics in the Wild** (2020) led by Profs. Julien Ayroles and Sarah Kocher, Princeton University.
A 3-week advanced (for juniors and seniors) field class in Mpala Research Center, Kenya, on the use of genomic tools to answer ecological and evolutionary questions. Helped coordinate the program including local field sampling, molecular experiments, and gave a lecture on genomic data analysis.
- Neurogenetics and Evolution of Behavior** (2018) led by Prof. Carolyn McBride, Princeton University.
An advanced (for juniors and seniors), discussion-based class on the recent publications of the genetics and neurobiology of behavioral evolution. Designed and led weekly review/discussion sessions.
- Environmental Biology I** (2016) led by Prof. Dustin Rubenstein, Columbia University.
An introductory course of biology for students from any backgrounds with emphasis on ecology and evolutionary biology. Led weekly review/discussion sessions, wrote and graded exams.
- The Behavioral Biology of the Living Primates** (2016) led by Prof. Marina Cords, Columbia University.
An introductory course of behavioral ecology, with emphasis on the behavioral ecology of primates. Designed and graded exams.

Diversity, Equity, and Inclusion**Mobile Mosquito Lab @ Martin Luther King Junior Middle School, Trenton, NJ (2023)**

As the McBride lab, we designed a fun and informative program aimed at teaching local middle-school students basic biology of mosquitoes. Working with both English- and Spanish-speaking students, I took charge of a microscope module in which we compare *Aedes* and *Culex* mosquitoes and discuss their morphological and ecological differences.

EEB Scholars Program, Princeton University: Mentor (2020-present)

Mentored students from underrepresented backgrounds to apply for Ecology and Evolutionary Biology graduate programs in the United States and Europe. Mentoring includes: 1-on-1 meetings to help clarify their research interests, essay writing and revisions, mock-interviews throughout the application season (from early fall to late winter the next year).

EEB Open House: Graduate Student Panelist (2021)

Participated as a graduate student panelist in the session with aims to demystify the application processes and life as a PhD student for the potential applicants to the Ecology and Evolutionary Biology PhD program at Princeton University.

Evolution 2021 Bilingual Mentoring Program: Mentor (2021)

Mentored a non-native mentee to help with translation, grammar, and spelling on presentation, provided presentation advice for recording, and advised the mentee on how to make the most of their participation in social events.

XPLANE: Founder and Board Member (2019-present)

Co-founded a Non-Profit Organization XPLANE funded by US Department of State and US Embassy in Tokyo. We designed and implemented a community-based knowledge platform for Japanese students who would like to apply for overseas graduate schools with limited resources. Currently a community of ~3,000 active users. Website [here](#) (Japanese).
