## Mentorship and Teaching

### *Mentoring philosophy*

Mentoring is one of the most important contributions a scientist could do to the society, and one of the greatest joys I see in my job. I leverage the beauty and complexity of life as an inspiration to help mentees become active and educated citizens who can think critically and challenge status quo when facts contradict it. I welcome and encourage students from all backgrounds regardless of nationality, gender, race, religion, or creed, to develop their own interest and motivation.

## Service, Outreach, and Capacity Building

**Columbia Zuckerman Institute Neuroethology Club: Organizer** (2024 - present)

Organizing Zuckerman Institute Neuroethology Club (ZINC). We invite internal and external speakers for monthly seminar series and occasional special events with a focus on current topics in neuroethology.

**Mobile Mosquito Lab @ Martin Luther King Junior Middle School, Trenton, NJ** (2023)

As the McBride lab, we designed a fun and informative program aimed at teaching local middle-school students basic biology of mosquitoes. Working with both English- and Spanish-speaking students, I took charge of a microscope module in which we compare *Aedes* and *Culex* mosquitoes and discuss their morphological and ecological differences.

**EEB Scholars Program, Princeton University: Mentor** (2020-2022)

Mentored students from underrepresented backgrounds and/or with limited resources to apply for Ecology and Evolutionary Biology graduate programs in the United States and Europe. Mentoring includes: 1-on-1 meetings to help clarify their research interests, essay writing and revisions, mock-interviews throughout the application season (from early fall to late winter the next year).

**EEB Open House: Graduate Student Panelist** (2021)

Participated as a graduate student panelist in the session with aims to demystify the application processes and life as a PhD student for the potential applicants to the Ecology and Evolutionary Biology PhD program at Princeton University.

**Evolution 2021 Bilingual Mentoring Program: Mentor** (2021)

Mentored a non-native mentee to help with translation, grammar, and spelling on presentation, provided presentation advice for recording, and advised the mentee on how to make the most of their participation in social events.

**XPLANE: Founder and Board Member** (2019-present)

Co-founded a Non-Profit Organization XPLANE funded by US Department of State and US Embassy in Tokyo. We designed and implemented a community-based knowledge platform for Japanese students who would like to apply for overseas graduate schools with limited resources. Currently a community of 2,500+ users. Website [here](#) (Japanese).
